

# THE GLEICHEN CALL

TWENTY-SEVENTH YEAR NO. 38

GLEICHEN, ALBERTA, WEDNESDAY DECEMBER 6, 1933

SUBSCRIPTION \$2.00 PER YEAR

## OLD TIMERS' DANCE ATTENDED BY LARGE CROWD

The eight annual Old Timers' Ball went over with a bang. To say that it was a success socially and otherwise would be to put it mildly. To show how greatly the crowd enjoyed them selves it might be pointed out that at three o'clock there was a noticeable diminution of the crowd, all the old timers were still going strong and called for more.

Promptly at 9 o'clock Master of Ceremonies L. Michael got the dance underway for a good sized crowd was already on hand. The Grand March was called a little later and was led by Mr. J. E. Ostrander and Mrs. L. Sather. From then on a program used at a dance in Gleichen over 21 years ago was followed, and only at rare intervals, as an extra was a fox trot called.

The dance was put on as an old time dance and as such it was planned to stick to old time dances and music. This was appreciated was easily seen by the encores that were called for time and time again. Art Brenner and his orchestra played the best and pleased the crowd immensely. The orchestra played for seven solid hours with only a short pause between dances. This continuous music feature was another item that the crowd appreciated. At supper time with many people absent there seemed to be just as many people as ever on the floor.

The crowd came from all parts of the country: from east to Bassey, Drumheller, Rossbush, Redlands, Standard, Armadillo, Mel Queenstown, Southside, Arrowwood, Molehill, Carletonplace, Cluny, Na moka, Strathmore and Calgary.

With the paid admissions and the invited guests there were approximately 500 people in attendance. On thing that helped to bring out the crowd was the magnificent weather. The weather could not have been more satisfactory if it had been made to order.

## SIDELIGHTS OF THE DANCE

We were disappointed that Mr. Griesbach did not lead the Grand March as he does the parade of the Stampede.

Glen's acrobatic stunt was alright. The only trouble was his feet filled the box.

The banquet went over 100 per cent and so did the dance. Nearly 450 signed the register.

The oldest old timer was Robert Armstrong, 1882, of the Reil Robertson farm. The next was Joe Bush of Peace River, guest of Pete DeVos.

The ladies deserve more than a vote of thanks for their efforts in putting on the banquet.

Everybody looks eagerly forward to the 1934 dance and it no doubt will be the greatest of them all.

S. Sampson entertained the crowd for a few moments by getting into a box no higher than his knees and a about two feet square.

Mr. and Mrs. Rodborne, real old timers of Make Peace enjoyed themselves immensely. They have never missed an old timers dance here.

Lou Michael as Master of Ceremonies made a good job of it. Lou gave his best and the ball rolling merrily from 9 till 4 without a pause. He was ably assisted by Jas. Greer.

## A. A. MOORE STRATHMORE EDITOR PASSES ON

A. A. Moore, editor of the Strathmore Standard, died at his home in Strathmore Sunday evening after an illness of one week, at the age of 65 years. The late Mr. Moore was well known to the newspaper fraternity of Alberta. He was born in Kinross, Bruce County, Ont., and went to Kingston in 1883, where he joined the staff of the Kingston News. He was also engaged with other papers in the east for a number of years before coming west in 1907. Mr. Moore has been proprietor of the Strathmore Standard since 1926 and had been active in community affairs. He is survived by his wife and two daughters. The funeral takes place today at Strathmore and interment will be made in the Union cemetery, Calgary.

## ORGANIZE OLD TIMERS. ASSOC. AT BANQUET

Nearly one hundred old-timers and citizens gathered to a banquet in the Gleichen Community Hall as the special guests of the Gleichen Board of Trade, Friday night. Every old timer of the district who has resided here since the year 1900 was the guest of honor both to the banquet and the dance following. Many old time souvenirs were refreshed and stories from forty to fifty years ago were told.

In order to honor the pioneers of the district and to bring them together and renew acquaintances, the board of trade decided to arrange for this wonderful meeting. Among those present were seen ranchers who have struggled here through the earliest pioneering days. It was a great reunion. One of the purposes sought was to make it possible to have an Old-timers Association formed for Gleichen and district.

Many after dinner speeches were made full of old-time wit and humor, and many were the songs of fellow-jump and old-time acquaintance in which everyone joined.

N. T. Parcell, president of the Board of Trade, also presided at the banquet and acted as toastmaster for the occasion. Mayor Yates offered the guests the freedom of the town of Gleichen for the night. John G. Shuchman, Mr. L. A. representing the provincial government spoke of his early experiences. Douglas Hardwick as one of the oldest, expressed the thanks of the guests of honor while E. Wyndham, of Carletonplace also spoke for the old-timers.

At the banquet the old-timers retired to the Club Room for the purpose of creating the Gleichen Old Timers Association. The following officers of the Association were elected:

President, Duncan Clark, 1838.  
Vice-President, W. H. James, 1894.  
Secretary, Sam Dufee, 1847.  
Executive.

E. Douglas Hardwick, 1889.  
E. Wyndham, 1887.  
Dave Brown, 1889.  
Mrs. M. E. Brewster, 1885.  
Frank Daw, 1888.  
Miss S. Brown, 1889.  
W. W. Brown, 1890.

The officers and executive are people who have been in the district forty years and over. People who have been here over thirty years are eligible to become associate members.

The following is a list of the invited guests and those present:

Mr. and Mrs. D. Hardwick, Shorty Hardwick, Mr. and Mrs. Black, Mr. and Mrs. Goodenham, Dave Wilson, Mr. and Mrs. E. Daw, Mr. and Mrs. John Buckley, Mr. and Mrs. John Martin, Walter James, Mrs. Brecken, Mr. and Mrs. W. James, N. T. Parcell, Mr. and Mrs. Pinesu, Mr. and Mrs. Stenmeister, Mr. and Mrs. Haskayne, L. Johnston, Tom Johnston, Mr. and Mrs. McInelly, Mr. and Mrs. E. Hansen, Mr. and Mrs. W. Service, Mr. and Mrs. E. Taylor, Mr. and Mrs. V. Gilvert, Adjutant Sutherland, Major Haskin, Mr. and Mrs. Chas. Rodborne, Dave Brown, Miss S. Brown, Austin Brown, Mr. and Mrs. Chas. McKinnon, Mr. and Mrs. MacCallum, Mr. and Mrs. D. Clark, Mr. and Mrs. Yates, Mr. and Mrs. F. Jones, Mr. and Mrs. Chas. Jones, Mr. and Mrs. A. R. Jones, W. H. Palmer, Bob McMillan, Emil Griesbach, E. Wyndham, Mr. and Mrs. Preswitt, Mr. and Mrs. H. Scott, Mr. and Mrs. J. McLean, Mr. and Mrs. Moresch, Mr. and Mrs. Telford, Mr. and Mrs. Dufee.

Mr. and Mrs. Guttman, Mrs. Rodaminski, Bob Armstrong, E. Parkinson, Mr. and Mrs. J. Green, Mr. and Mrs. J. Wilson, Mr. and Mrs. W. McKay, R. W. Harrison, Mr. and Mrs. Michael, E. Sampson, Mr. and Mrs. Bremner, Mrs. Waters, L. Alfonsa, Jack Bremner, Mrs. James McLean, Miss M. McLean, W. W. Brown, Gordon Melvin, Tom Snowdon, Otto Kristian, H. Breidin, Mr. and Mrs. H. Biggs, Mrs. Wishart, Miss Morton.

The 22nd Battery announce that the date for their annual New Year's ball has been set for Monday Jan. 1st.

According to the data from the domestic court records last month difficulties occur when the groom marries at 29 and the bride is 24.

"Sculls or Skulls", whichever way they are split suits Georg Von Opel, who captured the Diamond Skulls at Henley, England, and who was a winner at Toronto, Canada, for he has just returned from a month of hunting south of Banff, world famous Canadian Pacific Rocky Mountain Resort, and has brought back with him some splendid specimens of big game skulls. After looking for a two weeks' trip he found the sport so good that he increased it to six weeks. Elk, moose, mule-deer, Rocky Mountain Goats, and Badger Skins, he added to his collection while hunting south, but failed to get a grizzly. For two days he trailed one big fellow but the inclement and changeable weather met with, made success impossible. The grizzly, however, annoyed by the trailing, turned the tables on Georg by trailing the hunter to camp and stealing Georg's most prized goat head. Von Opel made the trip with Frank Phillips, famous Rocky Mountain Guide. Picture shows Von Opel on the right.

## BLACKFOOT M. D. COUNCILLORS IN REGULAR SESSION

With all the members of the council present a meeting of the councillors of the Municipal district of Blackfoot was held in the municipal office.

The unpaid accounts of the Holy Cross and General Hospitals have accumulated to \$700 and while the municipality cannot pay these accounts at the present time the council discussed this and anticipated expenses in this connection. Councillor Nelson carried a motion that the Holy Cross hospital, Calgary be asked if they are prepared to accept patients from this district at reduced fees and conditions of agreement.

On a motion of Coun. Umbrite the council recommended that an Old Age pension be granted to W. F. Robson, of Cluny.

A claim for poisoned pigs by Alex. McLean was the next subject discussed. Arsenic had been removed from government premises and the pigs were reported poisoned from the arsenic leaking from barrels when being loaded. Mr. McLean appeared in support of his claim. Coun. Bollinger carried a motion that Mr. McLean be paid \$5.00 as full settlement for three small pigs poisoned.

Each councillor was instructed to deal with farm help applications for the division he represents and at his discretion sign on behalf of the municipality as recommending official. The urgent need of feed by farmers on dry lands, particularly farmers north of Cluny is to be drawn to the attention of the Department of Agriculture, Edmonton, and the province asked to come to their assistance.

Grocery and coal relief advances were made to residents for the coming month totalling \$125.00.

Coun. Bollinger: That we accept arrears of taxes less \$25.00 from Meadowbrook hall and from Chancellor Memorial Hall less \$4.75, provided said arrears are paid in full on or before December 15th, 1933.

All pay sheets and accounts as ok'd by the finance committee were passed and ordered paid.

We read of a plan that can scrap an automobile in five minutes. Well, well directed co-operation a telephone pole can beat that.

## DO WE WANT MORE IMMIGRATION AT PRESENT TIME?

From time to time during the past few months men in high places in Canada have dropped hints that one of the things needed in this country was the letting down of the bars to a certain extent, which would permit of immigrants coming here to settle on farms. These men, however, always qualify their statements by stating that such immigrants should have sufficient capital to preclude any possibility of them becoming public charges.

Premier Bennett, in Winnipeg not long ago, said one of our needs in Canada was bigger population. Dr. A. O. Dawson, chairman of the executive committee of the Canadian Chamber of Commerce, told that body recently that some of the restrictions that prevent the immigration of people into Canada are simply ridiculous. "The time is coming," he said, "when we should allow men who would be a real asset to the country greater freedom of entry," and recalled that this sentiment seemed to have penetrated to high places, named Premier Bennett and President Beatty of the C.P.R. as men who were in favor of easing up on the present restrictions.

President Bennett is quoted on the question as follows: "I think I would be one of the last in Canada to recommend anything which would accentuate our present unemployment situation, but I am satisfied that the kind of immigration now being discussed, involving settlement upon lands of men who would be adequately supported and become self-supporting is a problem which demands serious consideration. It must not be forgotten that no intensive flow of immigrants is expected or desired. That even the most moderate of policies will require a year or more to become effective and that any plans made in 1934 will not be operative until at least a year later and that we will have nothing to fear from the steady immigration of a relatively small number of people per annum under conditions of land settlement which will be carefully worked out for their and the country's protection."

Perhaps these men are looking at this question in an entirely different

light than does the man who is forced on the labor market, looking for work. They may be right in wishing to see a bigger population in Canada, and all of them more or less are agreed that any such immigrant should be men who would go on the land.

They are mildly advocating, at the moment, that the restrictions be modified, and sooner or later will be saying that it is the only sane and wise policy for Canada to pursue.

A conference in London recently, called for the purpose of discussing the advisability of cutting down on the production of wheat owing to the alleged over production in the world commodity it was agreed that Canada should cut down on production. If there is over-production why put more people on the farms of Canada than there are at present? If we want more farm production in Canada why does not our government encourage and help the thousands of young men who are out of employment and are dependent on the government for their subsistence to take up farming? Thousands of these men were brought up on farms of Western Canada, they know the conditions that must be faced, and if there is any chance of making good on the farms they would be the men to put it across, not an inexperienced man from the old land.

The point might be raised that these new farmers would be encouraged to take up some other branch of farming operations than wheat raising, but what could that be?

Canada does not have the climate to grow anything but the hardest kind of cereals, and even if we

Go this winter, when fares are much lower, and the return privileges longer, on tickets to Pacific Coast, Old Country, Eastern Canada and Central States points. Fine all-steel trains—real travel comfort and service.

Fares, Train Schedules and full information from Agent

Canadian  
Pacific

## Is This Progress?

Were it not for the occasional event of great significance, civilization would stagger on towards whatever goal it is heading, without mankind being any the wiser, or the more acutely aware of its steady progression. World statesmen occasionally venture the prediction that another great war inevitably would wreck the civilization of today; and the statements of these prominent men would undoubtedly be taken at their face value, were it not for sporadic manifestations of the dynamic basis which distinguishes western civilization. Other men of renown have said civilization has no goal, no great achievements to its credit, in that it is not increasing and has not increased, the sum total of human happiness. But again, some event hits the front pages of the daily newspapers indicating its triumphal march-somewhere, which completely confounds Cassandric-like prophets and claimants of stagnation.

The events which have called forth this opening paragraph are, of course, those which occurred recently in the great and glorious State of California. There, two confessed kidnappers were summarily lynched by an irate, small-town, crowd which, instead of being punished for usurping the functions of the state itself, are exonerated and even lauded by the chief dignitary of that state. In fact, Governor Rolph was so far from taking punitive measures against the crowd which (perhaps) saved his hangerman a job, that he declared to the press his wish that he had the power to release all kidnappers held in California State prisons to the tender mercies of the same mob. It might, he added, act as a deterrent to kidnappers elsewhere in the United States. Thus civilization marches.

Possibly there is truth in his contention. It is equally true, however, that rigorous enforcement of the laws entrusted to his administration would serve the same purpose and achieve as good results. If his commendation is to mean that lynch law can be invoked with impunity in the warfare against kidnapping, it might be urged that the cure is as bad as the disease. In fact, the cure itself is a disease which it took more than half a century of repression to eradicate. Governor Rolph is dabbling in a strange homoeopathy; and perhaps he would be employed better in tightening up the law and its enforcement, through the police and the courts, than thus encouraging revival of a discredited atavism. That law-breakers should lynch law-breakers is, in effect, a protest against the law's delays and not the inefficiency of a law-enforcing machinery. Perhaps then, Governor Rolph should begin the clean-up against kidnappers nearer his own office.

They have a new premier in France. M. Chautemps is, in fact, the 101st premier France has had in some 63 years. Apparently the motto over the door of the office reserved for the chief executive in France is "Here today, gone tomorrow."

Old Lawrence Sterne it was said: "They do things better in France." It would be hard to persuade those accustomed to the more staid and dignified British process of placing and replacing Prime Ministers, to agree with this sweeping statement. Changes in the French cabinet are made without involving the machinery of an election. They just change—that is, a prime minister comes, and collects a cabinet around him, not of those adhering to his own political party or even sharing his political faith. He selects such individuals as appear to him to have sufficient influence and influence among their particular groups to ensure him a majority of the deputies. The parliament runs its course. Ministers change without consulting their platform to the people. The system removes government from the people, and tends inevitably to place the real authority in the higher class of permanent officials of the civil service. Responsible government, as Canadians know it, is impossible under such a system, while the bargaining that invariably precedes the formation of a French cabinet injects a pork-barrel element into the political arena which is repugnant to western minds.

## Shipment Arrived In First Class Condition

British Firm Well Satisfied With Honey From Saskatchewan

Saskatchewan honey arrived in Great Britain in first class condition. The honey, a carload shipment, was sent to Britain on the S.S. Brandon, via the Hudson Bay, to British importing firms.

R. W. Pugh, provincial apiarist, states that W. Waldron, Saskatchewan markets representative in England, and Mr. Keith, of the Canadian purity department, made a personal inspection of the honey at the London dock. They write that the honey landed in first class condition, the cartons being clean and the honey in a uniformly good state.

The British importing firm to which the honey shipment was consigned, writes as follows: "We are exceedingly satisfied as the honey has been delivered in excellent condition and the quality is first class."

## Trying Out New Uniforms

Japanese Soldiers To Report On Silk And Wool Cloth

Official amusement expressed by the Japanese War Office over a report that silk uniforms were to be provided for the soldiers, has apparently been retracted. Experiments in uniforms have not been issued to some battalions. Some of the uniforms are made entirely of silk, but most of the cloth is a mixture of wool and raw silk. The silk-clad soldiers will be asked what they think of the new uniforms and especially in preserving warmth, effects of rain and snow on them, cost of washing and repairing.

## Gilding Record For England

Gliding record for England was set up by J. Laver, of the Dorset Gliding Club, at Thrisk. He remained in the air seven hours and twenty-two minutes. Mr. Laver might have continued for a longer period, but darkness interfered with his visibility. Heavy rain was falling when he landed. The world record is held in Germany and exceeds thirty-six hours.

## Shortness of Breath Weak, Sinking Feelings

If going up stairs, climbing hills, walking too far; if the least exertion causes you to stop to get your breath, or if you have weak, sinking feelings, it is time for you to stop and think as to the cause of your trouble.

What you should do is take a course of Milburn's Heart Pills. These pills strengthen the vital organs so as to prevent any harmful attacks of disease.

Ask your druggist for Milburn's H. & N. Pills.

## Coal King's Rise And Fall

Valuable Treasures Collected By Pennsylvania Man Sold For Song

Under a mammoth circus tent, on a weed-grown estate where once played some of the world's most glamorous social lights, an auctioneer at Uniontown, Pennsylvania barked out the epilogue of a drama of the rise and fall of a king of coal. And as piece after piece of the treasures collected from over the world by the late J. V. Thompson fell under the hammer, the husky-voiced hawker shouted, "Why, they're going for a song—going for a song." They continued to go for a "song," and three hours after the sale began a throng of art connoisseurs and society notables had spent only about \$11,000. The highest price paid for any article was \$2,400 for a beautiful Krimshank rug which Thompson bought for \$20,000 while on a honeymoon in Constantinople with his Broadway showgirl bride, the Honey Hawes. A richly designed Italian scarf, the first article to be sold, brought \$18, and a fine antique tabriz Persian rug went for \$655.

## Profit In Forestry

Under Proper Conditions Tree Growing Promises Sure Returns

Planting forests frequently has been praised as a profitable business, but generally has not made much of an appeal to private enterprise. The crop is too long in growing. Nevertheless, as an undertaking for governments and for long-lived institutions tree growing under proper conditions promises sure returns.

Foresters of Michigan State College recently estimated the crop value of a planting of white pine made on college lands forty years ago. The land used was estimated at \$158.75, \$15 per acre and the total cost of trees, planting labor and all other expenses in connection with the project has been \$32.75 an acre. The value of the timber on each acre at present market prices is estimated at \$158.75.

College authorities therefore compute that the trees have earned compound interest at the rate of 4.05 per cent. for the forty-two years.

## Writing For The Cinema

Canadian Films Will Soon Be Taking Prominent Place

Capt. Howe, a member of the board of directors of the Canadian Film Producers, addressed the Canadian Women's Press Club at Toronto on "Writing for the Cinema." He traced the history of the industry generally and particularly in Canada, expressing his conviction that in an unbelievably brief period the Canadian film will be taking its place among the pictures of the world—this despite the fact that so far Canada had been lagging in the race that she might be considered as having hardly started.

The speaker compared the films of the various countries, pointing out their fine qualities and the reverses, assuring his audience that he was confident that in Canada there was not only people qualified to write for the cinema but that Canada had the material for the production of films that should be second to none.

## It Happens Frequently

People Travelling In Europe Forget Most Foreigners Speak English

An Englishman who knew no language but his own had lost his way in Rome. In his perplexity it occurred to him to write the name of his hotel in large letters on his card and hand it to the first benign-looking individual he met.

An Italian thus accosted turned, and with the charming manners of his race, accompanied the perturbed Englishman for about 20 minutes in silence until he reached the hotel designated. Then the tourist poured out voluble thanks in the only language at his command.

The Italian looked at him in amazement, then remarked in perfect English: "I thought you were deaf and dumb!"

## Has Lived Long Life

Ontario Woman Recently Celebrates Her 103rd Birthday

Still interested in living her century over again, Mrs. Miranda W. Hillyard recently entered her 103rd year. She was born in Frost Village, Quebec, in 1831, and has a vivid recollection of the soldiers scouring the district in 1857 on the hunt for Papineau's rebels.

Her parents were Edmund Durell, both of United Empire loyalist stock. In early life Mrs. Hillyard came to Ontario and her husband, Robert Hillyard, a banker, died in St. Mary's in 1883. Her one son served in the South African war in 1900 and a settled daughter, she has a married daughter in Philadelphia and another at home.

## WORK IS EASIER NOW FAT HAS GONE

"I was so stout about 11 months ago," a woman writes, "that I became a burden to myself. Then muscular emaciation set in, my joints, and I had to go on sticks for some time. Then I started to take Kruschen Salt, and I am overjoyed with the results. I have derived from them. Honestly, I had no idea one could feel different in such a short time. Since taking Kruschen, I have lost nearly 28 lbs. of superfluous fat. I can now run about as well as when I was 20, cool, work, and attend to seven growing children."—(Mrs. G. H.)

Unlike certain drastic drugs, Kruschen does not aim to reduce by ruing food through the body; its action is "not" confined to a single part of the system. It has a tonic influence upon every organ of elimination, every gland, every nerve, every vein. Certainly, but surely, it rids the system of all fat-forming refuse, of all poisons and harmful acids which give rise to rheumatism, digestive disorders, and many other ills.

## Arctic Cold At Equator

Instruments Register Twenty Degrees Lower At Similar Altitude

If you were looking for a colder place than the north pole, you certainly would not go to the equator to find it, would you? As contrary to fact as the statement may seem to be, unless you did this very thing year after year, you would be in disappointment. Meteorologists have found that it is actually colder at the equator than it is at the north pole! For proof of this, scientists have taken the trip and, from a position on the equator, they send up sounding balloons equipped with meteorological instruments. At heights six or seven miles above the equator the instruments registered a temperature that was 20 degrees lower than the Arctic regions. As an explanation of this phenomenon it is suggested that the re-radiation of heat from the surface of the earth at the equator is retarded by humid air.

## Our Best Pleasures

Six Rules By Which They May Be Tested

The best pleasures are first, the simplest—pleasures which require least machinery, least effort on the part of others; second, the best experience, third, the most accessible; fourth, those that can be most widely shared; fifth, those that can be most often repeated without doing harm to body, mind, or soul; sixth, those that call into action the highest qualities of life. The best pleasures are what we might call top-floor pleasures; that is, the pleasures of mind and spirit. If we test our pleasures by such laws as these, they will take us out of the realm of indoors; to nature, and not to artificial things; to wholesome exercise, and not just to idle entertainment; to music, friendship, and books rather than to excitement and things that are artificial.

## Procedure To Be Abolished

No More Advance Information About Grants To Fairs

The Federal Department of Agriculture's established procedure of informing fair and exhibition managers well in advance of the amount of the government grant they will probably receive, is to be abolished this year.

Delegates to the Canadian Association of Fairs and Exhibitions were told at their annual meeting that there will be no advance information this year. George B. Rothwell, head of the livestock division of the department of agriculture, made the announcement. He said the department's estimates would be subject to revision by the government, even if the House passed them.

## Faithful To Old Tradition

South African Dutch Still Greatest Bible-Reading Race

Worthy descendants of the world's greatest Bible-reading race, the South African Dutch, are proving faithful to the old-time tradition. It was expected that the new Afrikaans Bible would be a best seller, and a first edition of 100,000 copies were ordered by the British and Foreign Bible Society. But so heavy has been the demand that a cable has been sent instructing the printers to increase the edition to 150,000 copies.

## BUCKLEY'S Gives You More For Your Money

Buckley's gives more value for as few ordinary cough remedies, because it can be diluted with water without impairing its curative healing and soothing qualities, and because only a few drops are needed to put the most stubborn cough or cold out of business. Every one up and down the globe commends it.

"That's why people say, 'It's like a fat'."

No drops—no sweet sticky syrup—just a small amount of Buckley's gives you more for your money. Buckley's is sold everywhere.

## Lord Lonsdale's Model Estate

Every Small Detail Of Management Watched By Owner

Lord Lonsdale, in addition to his many-sided sporting interests, is chairman of a publishing firm. He has wonderful way with animals—in particular with horses and dogs and birds. At morning at Lonsdale each privileged dog comes into the dining-room, goes sedately to its own particular corner, and there settles quietly with one eye fixed watchfully on Lord Lonsdale's movements. The stables would give any maker of films a mass of material for one of his most successful of these days could offer, says the Overseas Mail. They are magnificently run in the old-fashioned English manner—as, indeed, the whole house is—without any regard to the modern love of informality and speed. Lord Lonsdale has kept all his old coaches and carriages—in themselves a small museum which will interest future generations. All of them are painted the bright yellow which makes his cars so recognizable at race meetings today. And he himself watches every small detail of the estate's management—even to the laying out of the gardens, which was done by his particular instructions; such is of a different character, Italian, French, and so on.

## Air Fields Across Canada

Within A Year Stations Will Be Ready For Service

A year from now air fields across Canada will be ready for a trans-Canada air service, Brigadier J. Lindsay Gordon, commanding officer of M.D. 12, told the Young Men's Board of Trade at Regina.

Single unemployed, Brigadier Gordon pointed out, were doing a work that would prove a boon to the future of aviation in Canada. The great obstacle to a trans-Canada route in the past, the northwestern part of Ontario, was the scene of camp for the preparation of airports.

By next fall Canada would have ground facilities to permit the establishment of an air line from Halifax to Vancouver, Brigadier Gordon pointed out. This would lie on the shortest route from Europe to Asia. The Pan-American airways had already received concessions on a portion of the route, which would have a terminus in Newfoundland.

He spoke of the possibility of competing with the United States in Oriental silk shipments, although, he said, passenger traffic was so small in Canada as not to merit the operation of an air line simply for passenger purposes.

## Foreclosure Proceedings

Large Tracts Of Land In Manitoba and Saskatchewan Are Involved

Foreclosure proceedings involving first mortgage debentures in excess of \$500,000 and second mortgage debentures of \$713,000 on large tracts of land in Saskatchewan and Manitoba settled during the past eight years by Monnettes, have been taken in Saskatchewan courts. By an order made recently arrears must be paid by October 3, 1934, or foreclosure will become absolute.

The debenture bonds first issued were sold to large investors in Canada while the second issue bonds were sold mainly to Monnettes already settled in Canada and the United States. The company promoting the settlements was the Intercontinental Company. The National Trust Company has been named trustee for the first mortgage debenture holders.

The decision of the court does not affect the position of the numerous settlers.

## Radio Examinations

Fifty-One Candidates Examined During Month Of October

The radio branch of the Department of Marine announces that 51 candidates were examined during the month of October. Successful candidates who obtained certificates of proficiency in radio included:

Commercial—N. N. Hall and H. C. Haywood, Vancouver; W. H. Randall, Moose Jaw.

## New Air Mail Route

The Indian air mail "plane which left London, England, December 9, carried Christmas letters and packages destined for the Straits Settlements via Hongkong over a 1,500-mile addition to the route down now from Rangoon the mail will be flown to Singapore. The first return flight from Singapore will be made on December 31, reaching London, England, January 10.

with Ogden's Cut Plug has learned how to insure full pleasure in pipe smoking.

Home after a hard day's work — "the little woman" brings a light to your well-tamped bowl of Ogden's Cut Plug—that's real comfort! And every pipeful of Ogden's adds to your enjoyment right down to the last fragrant puff. Such cool, companionable goodness can only come from a tobacco grown, cut and made for pipes only.

## OGDEN'S CUT PLUG

If you "roll your own", use Ogden's fine cut cigarette tobacco and Chantecler cigarette papers

## On Job Seventy-Six Years

English Hand Kalliter Ninety Years Old Still Working

Who is the United Kingdom's oldest worker? One, Robert Harrison, of Calverton, Nottinghamshire, England, can lay a strong claim to this title, for though in his 96th year he is still working at his job of turning out half-hoops.

Seventy-six years ago, when only 13, he began work in the little cottage industry in Calverton. He was then one of several hundred workers. Today he is one of a dozen or so who are keeping alive the ancient trade of hand-frame knitting in a machine-dominated world. He has been in the employ of one firm, Morley's, whose senior craftsman he is, the whole of his working life.

## Aviator Had Narrow Escape

Yulture Crashed Into Front Of Imperial Airways Liner

Thrilling adventure below the Imperial Airways liner "Arcturion" on its journey from Gaya, India, to Calcutta. A yulture suddenly appeared ahead and crashed into the front of the cockpit, just below the glass-screen. By the force of the impact, the plating was bent inward and cut open the pilot's hand. The bird was killed outright.

## Will Never Be Expert

The Prince of Wales spoke of his practice with the character (part of his baggage) at a Masonic banquet in Edinburgh. "It is true that some months ago I was learning a few tunes," said the Prince. "If ever I am able to play in a pipe band in Edinburgh I should be very pleased, but I should never give a solo."

## What's Become of all The Homely Women?

Women simply aren't homely any more. You meet plain women, yes . . . but their smart, trim air is the envy of many who are only beautiful.

In the old days, when a girl gave promise of becoming "hopelessly plain," she was frankly informed of the fact to save her from hurt pride in later years. She remained frumpy and tried to convince herself that she didn't care!

Not today!

Advertising has played a remarkable part in making every woman attractive.

It has taught her to use the beauty and charm that are here heritage, regardless of the shape of her features, her teeth, her hair, her hands, her complexion, her clothes, and even her erect, athletic figure have been "brought out" by methods constantly before her in advertising.

Read the advertisements. They hold secrets of beauty and style that were denied the women of yesterday

## Town & District

Miss D. Burns, of Lomond, is visiting her sister Mrs. Eason.

T. H. Beach has moved his important business to the property adjoining J. Little's harness shop. N. T. Parcell is preparing to move his stock of groceries to the store vacated by Mr. Beach.

A prominent Gleichen man: "My dear, I got your Xmas. present in the city yesterday." Wife: "Oh! What is it?" "A heater for the car." Wife: "Why my Xmas, present? I never go in the car in the winter time." Hubby: "Well, my dear, you will not worry about me while I'm out in the cold."

A. W. Dingle post office inspector, Calgary, spent a short time in town last week inspecting the local post office.

The Gleichen U.F.W.A. will hold their annual meeting at the home of Mrs. E. J. Gachan, on December 7th, at 2 p.m. The U. F. A. will also hold their meeting at the same hour in the Municipal office. The business of the meeting will be election of officers for the coming year and final arrangements for rally night.

On Friday evening Asst. Commissioner Hughes, of Standard, entertained Scouts, Guides, Cubs with a moving picture show in the Legion hall. The films composed a trip to the coast cities, big game hunting in the Rockies, Calgary Stampede in which was a picture of our townsman Mr. E. Griesbach; Earl of Bessborough's visit to Calgary, and a comic, Felix the Cat. The youngsters 75 in number, thoroughly enjoyed the program, and a hearty vote of thanks was tendered the Commissioner, to show their appreciation.

Archdeacon Tims of Calgary, was the presiding officer at a special meeting called in St. Andrew's Church, where the local vestry were assembled one afternoon last week. Rev. J. House, principal of Old Sun Indian school on the Blackfoot Reserve and Canon Harrison of Bassano were also present. The history of the church was the subject of discussion since an offer to purchase same had been received. It was, however, decided that the Church should not give up possession of the building but rather retain title to the property. During the evening a special service was held in the church with Archdeacon Tims as the speaker. The service was arranged to inspire new courage and enthusiasm.

On Thursday evening, December 7th, in the Gleichen Community Hall Hon. O. L. McPherson, Minister of Public Works; Alton C. McCool, M. L. A. and J. C. Buckley, M. L. A. will answer Mr. Howson's recent speech here. Opponents of the Government are especially invited to attend and ask questions, which the speakers will be glad to answer, on the Government's record.

(Continued from Page 1)  
**DO WE WANT MORE  
IMMIGRATION  
AT PRESENT TIME?**

could do so, where would it be marketed? Surely we could not in justice advocate that new immigrants go into live stock raising when it is well known among those already in the business that unless a change for the better comes very soon and a wider market is found that they will be forced into bankruptcy. Everything that is produced on the farms in Canada today and sold on the open market is produced at a loss when measured by the ordinary yard stick of business practice.

The railway companies would stand to gain through a policy of immigration, but the country as a whole, under the world-wide conditions prevailing, would be worse off than it is now.

One other point. Should the immigration restrictions be eased and British farmers brought here to settle on the land, where would they be placed? The day of the few homesteads is passed, and it would be necessary to buy an improved farm from someone already tilling the soil, or raw land owned by some of the land companies. If bought from a farmer there can be no gain in production. If bought from a land company the land would be producing commodities that are already a glut on the market.

The time for letting down of the immigration bars has not yet arrived, and it will be some few years before such a policy would be wise. Until Canadian industry, be it farming or manufacturing, can absorb our present unemployed population we do not want more people in the country.

## UNITED CHURCH

Rev. V. M. Gilbert, Minister.  
11:00 a.m. Church School.  
7:30 p.m. worship.

According to Sir George Paish the entire world is bankrupt but refuses to admit it, that is the debtors cannot pay their debts but don't want to say it in so many words, while the creditors know that they cannot pay but hate to let them get away with it. World bankruptcy opens up an interesting field of economic speculation. If the whole area is considered as a unit it is apparent that it includes all the debtors, and all the creditors, and that as all the debts are exactly equal to all credits then the payment of the debts would mean simply a redistribution of wealth within the area but would mean no change whatsoever with regard to the total wealth within the area.—Manitoba Co-operator.

A judge believes that when a husband and wife are divorced all the property should be divided 50-50. He so ordered it in a divorce case in which the woman was awarded an equal share of all the family possessions, even to half the milk from the family cow.

If folks were compelled to practice what they preach, there would be noticeably less preaching.

Our greatest fear concerning the matter is that too much argument about peace may lead to war.

A preacher at the age of 76 is learning to dance because he "wants to keep young."

While an insurance agent was trying to sell a woman an automobile theft policy, his own machine was stolen from in front of her home. He sold the policy.

Correct this sentence: "I have no trouble in dealing with women because I understand them."

Efficiency experts might have a try at dividing some means of utilizing left-over advice.

After standing for 1,192 beatings from her husband in less than 22 years, a woman 35 years old filed suit for divorce and got it with \$20 a week alimony.

## The Gleichen Flour Mill

Beau Ideal Flour milled by the Gleichen Flour Mill is a straight grade and consequently has higher protein contents and greater food value than First Patent flour.

It has a slight creamy color when first ground but becomes perfectly white in a month or two as it bleaches naturally in the bag.

Keep a few months supply of Beau Ideal on hand and you will always be sure of having a well matured flour of the very best quality in your home.

## WILL TAKE WHEAT ON SUBSCRIPTION

The Call will accept payment for subscriptions in wheat, at the rate of 25 cents a bushel. That is three bushels of No. 1 or No. 2 wheat will pay a years subscription. This policy covers arrears, renewals or new subscriptions and applies to bona-fide farmers in any part of Alberta. The wheat may be delivered to any elevator with a graded storage receipt made out in the name of The Gleichen Call and presented to The Call for credit. This exchange will be in force until definite notice of withdrawal. All farmers wishing to take advantage of it are requested to do so as early as possible during the grain marketing period.
